Dear Potential Delegate,

We are proud to announce that Jernkontoret will host the 5th ESTAD Conference in Stockholm on June 14-18, 2021.

This is an outstanding opportunity to meet leading experts and suppliers and listen to the latest developments in steel technology and applications.

The European Steel Technology and Application Days (ESTAD) conference is hosted in cooperation between the German Steel Institute VDEh, Austrian Society for Metallurgy and Materials (ASMET), Associazione Italiana di Metallurgia (AIM), and the Swedish Steel Producers Association (Jernkontoret) since 2013.

Today ESTAD is established as an important meeting place for steel producers, steel users, plant suppliers, research institutes, as well as universities from all around the world.

Nowadays we are well aware of the potential hazards of greenhouse gas emissions. The steel industry is responsible for a significant part of such emissions. At the same time, steel is vital for building a sustainable society.

Although several important steps have been taken, a lot more has to be done to decrease the emissions to the levels set by EU policies for 2050. New technologies are required for virtually all processes related to steel production. Open exchange of ideas and knowledge is a very good starting point for developing the new, smart and sustainable processes the steel industry needs. ESTAD 2021 will be a part of this journey into the future.

We warmly welcome you to participate and contribute to this event in Stockholm in 2021.

We will do our utmost to give you a pleasant stay in what is perhaps the most beautiful city in Europe.

Stockholm September 2019

Bo-Erik Pers
Managing Director
Jernkontoret

Gert Nilson
Technical Director
Jernkontoret

ABOUT THE CONFERENCE

In 2021, ASMET, AIM, Steel Institute VDEh and Jernkontoret organize the 5th European Steel Technology & Application Days (ESTAD), the leading European technical conference for the Steel industry.

This event will continue to offer the opportunity to be informed about the most recent developments of steelmaking processes and steel products.

FOCUS

This international conference focuses on the latest trends and issues and provides a wide networking and information platform for equipment and service suppliers, plant manufacturers, steelmakers and scientists.

At this event you will acquire the latest information on new ideas and developments as well as on the state-of-the-art in metallurgical process technologies for iron and steel production, steel materials and steel application.

The Conference will focus on all technical aspects within the following six main fields:

- Ironmaking
- Steelmaking
- Rolling and forging
- Steel materials and their application, powder metallurgy and surface technologies
- Industry 4.0
- Environment and energy

CONFERENCE DATES

The conference will take place on June 14-18, 2021 in Stockholm, Sweden. Friday 18th is reserved for company visits.

VENUE

The conference will be held at the Brewery Conference Centre (www.munchenbryggeriet.se) in the centre of Stockholm with a spectacular view over the water and Stockholm City Hall. Until 1971 the venue served as a brewery but today it is a meeting place with modern facilities.

PRELIMINARY PROGRAM

June 14, Monday afternoon	Plenary speakers, opening of the exhibition, get-together
June 15-16, Tuesday to Wednesday	Parallel sessions, exhibition, conference dinner (Wednesday June 16)
June 17, Thursday	Parallel sessions, exhibition close at noon
June 18, Friday	Company visits (separate program)

POSTER SESSION

The conference will feature a Poster Session, providing opportunities to present cutting edge research in detail.

SPONSORS- AND EXHIBITION PACKAGE

The Brewery Conference Centre offers excellent exhibition facilities, located in the centre of the building and surrounded by the session rooms. You can find detailed layout of the exhibition area and exhibition packages on our website www.estad2021.com. For more information and reservations please contact the organisers (see below). Exhibition areas will be allocated on a first come, first served basis.

IMPORTANT DATES

Oct 2019	Exhibition layout and Sponsor and Exhibition packages available on web
Jan 2020	Abstract instructions available on web
May 2020	Second Announcement
Nov 2020	Deadline for Abstract submission
Jan 2021	Evaluation of Abstracts
Feb 2021	Authors notification
Mar 15, 2021	Deadline for Early Bird registration
April, 2021	Preliminary program
May, 2021	Final program
June 14-18, 2021	ESTAD 2021 Conference
