Dear Madam / Sir,

We are all living under somewhat unusual conditions these days. Every country as well as every individual is doing its best to handle the covid-19 pandemic. The organizing committee of the 5th ESTAD hope that you feel secure and well. We are steaming full speed ahead with the planning for the conference and hopefully the conditions will be much improved by June next year when we look forward to meeting you in Stockholm.

The Swedish steel industry and the Swedish steel producers' association, Jernkontoret, have agreed on a long-term vision, "Steel shapes a better future". Every day the steel industry's products contribute to worldwide society. Please join us in Stockholm to discuss how the steel industry can become an even more active participant in the ongoing shift to a sustainable society. We are sure that you share our conviction that scientific discovery and innovation are the basic tools to fulfill those intentions.

A prerequisite for this development is the exchange of ideas that takes place during networking with clients, partners, researchers and suppliers.

ESTAD is established as an important meeting point for steel producers, steel users, plant suppliers, research institutes, as well as universities from all around the world. The breadth of contribution guarantees that you will acquire the latest information on new ideas and developments as well as on the state-of-the-art in the production and applications of iron and steel.

Warmly welcome to Stockholm on June 14-18th, 2021!

ABOUT THE CONFERENCE

The conference covers five days (Mon–Fri). Monday afternoon is dedicated to plenary sessions and a get-together party with the Swedish steel industry’s vision “Steel shapes a better future” as the guiding star. Environmental, trade, sustainability as well as new technologies issues will be discussed.

Tuesday to Thursday is dedicated to technical presentations in up to eight parallel sessions. On Wednesday evening we invite you to the conference dinner (separate fee) at Stockholm City Hall.

Friday is dedicated to company visits. The options include an exclusive visit to SSAB in Luleå and the new HYBRIT pilot plant. More details about the company visits will be presented later this year.

The exhibition will be open from Monday afternoon until lunchtime on Thursday.

FOCUS

The Conference will focus on all technical aspects within the following six main fields:

- Ironmaking
- Steelmaking
- Rolling and forging
- Steel materials and their application, powder metallurgy and surface technologies
- Industry 4.0
- Environment and energy

You will find more details about the sub-topics on our home page, <https://www.estad2021.com/about-the-conference/>.

SUBMISSION OF PAPERS

All papers must be submitted online. Please visit www.estad2021.com/Call-for-papers section. There you will find an easy to use online submission form. You can submit two types of papers:

1. Full oral presentation (20min)
2. Short oral presentation (5 min)

All abstracts will be evaluated in terms of the following criteria:

1. Scientific value
2. Productivity and efficiency achievements
3. Quality achievements
4. Other major improvements

The conference language is English.

Deadline

Please submit your abstract by October 15th, 2020 at the very latest. All abstracts will be evaluated by experts within the Scientific Advisory Board (SAB).

IMPORTANT DATES

May 2020	Second announcement & Call for papers
September 2020	Third announcement & Last call for papers
October 15, 2020	Deadline for Abstract submission
November	Evaluation of Abstracts.
Jan 2021	Authors notification & Opening of Conference registration
April 2021	Deadline for early bird registration
Mid-April, 2021	Preliminary program and deadline for proceedings
Mid-May, 2021	Final program
June 14-18, 2021	ESTAD 2021 Conference

SPONSORS AND EXHIBITION PACKAGE

Remember to book your sponsor package or/and exhibition stand. More information is available on <https://www.estad2021.com/exhibitors/>. Please note that we have new favorable cancellation rules.
